PROFILE

Detail-oriented Backend Developer with experience in Python, Django, DRF, MySQL, and REST APIs. Skilled in database design, version control (Git), and Agile development. Passionate about building scalable, secure web applications with strong debugging and analytical skills.

Education

MCA (Master of Computer Applications) | 2024 - 2026 | IGNOU

BA (Bachelor of Arts) | 2020 - 2023 | Delhi University

12TH (Higher Secondary) | 2019 - 2020 | CBSE

10TH (Secondary School) | 2017 - 2018 | CBSE

Skills

Languages & Frameworks: Python, Django, Django REST Framework (DRF), HTML, CSS, JavaScript

Databases: MySQL, SQLite

Tools & Technologies: Git, GitHub, VS Code, Excel, REST APIs, Postman

Concepts: Data Structures & Algorithms (Arrays, Strings, Searching, Sorting), Object-Oriented Programming (OOP), API Integration

Experience

Rounderlabs.Pvt.Ltd | Sep 2024 – Feb 2025 | Delhi, India

Python Developer Intern

- Developed backend APIs using Django resulting in 30% performance improvement in data retrieval.
- Optimized MySQL queries reducing database response time by 25%.
- Integrated third-party APIs enhancing system functionality and saving 20+ hours/week of manual processing.
- Implemented RESTful APIs achieving 99.9% uptime and smooth client server communication.

Xzectlabs.Pvt.Ltd | June 2024 – Aug 2024 | Delhi, India

Backend Developer Intern

- Developed and maintained backend features using Django REST Framework, improving API reliability by 30%.
- Used Git & GitHub for version control and efficient collaboration across teams.
- Worked on Strapi CMS, setting up RBAC to manage permission and content workflow.

Projects

Finance Tracker Using Django : Built a finance tracking application to manage personal budgets.

- Developed a finance tracker using Django and DRF to track with 100% accuracy.
- Implemented User authentication for secure login and access control.
- Designed CRUD functionalities for managing income, expenses, budgets.

StudyBuddy Using Django : collaborative platform helps students connect and learn in study groups.

- Designed and implemented a study group feature where users can interact.
- Integrated **secure user login and access control** using Django's authentication system.
- Built a Responsive UI using Bootstrap for seamless experience.

Certifications

Python (Basic) Certificate – HackerRank | Issued: Nov 2023
